The Event

Going Green – CARE INNOVATION 2018

Towards a Circular Economy

7th International Symposium and Environmental Exhibition

An event to discuss future strategies, meet your clients and form strategic partnerships

- Date of the Event: November 26 - 29, 2018
- Place: Schoenbrunn Palace Conference Centre
- Expected Participants: 400 - 500

Going Green – CARE INNOVATION 2018 consists of 4 parts:

- **International Symposium**

Top-Experts compare the technical state-of-the-art in Europe, America and Asia and discuss future trends

- **International Meeting Place**

Going Green – CARE INNOVATION 2018 will provide individuals seeking business and/or research partners as well as RTD funding (EUREKA, European Union, global initiatives) with an important point of first contact.

- **Environmental Exhibition**

Presentation platform for the latest and sustainable developed electr(on)ic products, energy and recycling technologies. Located directly within the conference area the exhibition is like a village market place: central point for communication and presentation of new ideas.

- **Technical Tours**

Electr(on)ic & automotive manufacturing sites, recycling companies, renewable energy and energy-efficiency initiatives and research organisations situated within the Vienna Region will present themselves.

Top-Reasons for Sponsoring

- World's leading and most prominent congress on electr(on)ics and the environment including an International Meeting Place, Environmental Exhibition and Technical Tours
- Throughout the world **Going Green – CARE INNOVATION 2018** is the only event, where experts from companies in the electr(on)ics, automotive, energy, chemical and recycling industry, contract manufacturers, material and component suppliers, service and logistic companies, collective systems, academia, consulting and public authorities (local, regional, international) set the course for future trends in technologies, markets and sustainability.
- Meet your future clients as sponsor of our event, raise their attention and make your products and services known to them. A major step to increase your business in the future.
- More than **60%** of all participating experts hold management positions in **companies**.
- Due to the **intense co-operation** with our partner conferences the **international character** of the event is very high.
In 2014 425 experts from 39 European, Asian, American and African countries took part.
- Best **presentation possibilities** for the sponsoring companies at the environmental exhibition. In 2010 HP, Microsoft, Panasonic, SAP, STENA, Bis Repetita, dataserv, Greentronics, EPEAT, Green Electronics Council and INEMI were among the sponsors!

Going Green CARE INNOVATION 2018

November 26 - 29, 2018, Schoenbrunn Palace, Vienna

CARE INNOVATION 1996

Date & Location November 18-20, 1996; Frankfurt (Germany)
